

Speaker Biography
Sanjeev Sethi, MD, PhD

Dr. Sanjeev Sethi graduated from Assam Medical College, India. He pursued graduate studies thereafter at Albany Medical College, NY, and received his Ph.D. in Experimental Pathology in 1995. Subsequently, Dr. Sethi completed his Pathology residency at Yale University (1995-1999) and his fellowship in Renal Pathology at Brigham and Women's Hospital, Harvard University (1999-2001). He is currently a Professor at Mayo Clinic, Rochester.

His primary interests and research are in 1) Glomerulonephritis, with a focus on an etiologic approach to glomerulonephritis, the role of monoclonal gammopathy in glomerulonephritis, and the role alternative pathway of complement in glomerulonephritis, 2) Application of proteomics in renal pathology. New diseases and pathways have been identified using this novel approach. These include identification of new types of amyloidosis and novel antigens in membranous nephropathy. These studies have resulted in over 250 peer-reviewed publications.
